INTRODUCTION

Coinlaunchpad(CLPAD) is an ERC-20 project on the Binance network. A community-driven token with high aspirations to build a trusted launchpad for investors and project owners. At Coinlaunchpad We want to solve two problems in Defi space.

Currently every day there are 100's or 1000's coins doing their Airdrops, pre-sale, and public sale, most of them are scams or rug pulls and there is no easy way for an investor to identify which one of these is a fraud. Scammers find a new way to fraud the investor and several members of this community lost money at least once on these scams and rug pulls.

We want to build a platform by providing a coinlaunchpad trust score(Liquidity locking, Contract Audit, Verifying the dev identify and the uniqueness of each of the projects) for all the coins listed on the Coinlaunchpad.

Investors can choose the projects listed on coinlaunchpad based on the trust score and the team would be doing the vetting before its listed on the portal.

Why would any project owner list tokens on the coinlaunchpad?

This is the second problem we would like to address. There are some great projects in the crypto space that did not see any light because they failed to bring a community together and failed to market their coin. Coinlaunchpad would like to solve that problem by providing following services to the clients.

• Create DEFI from the scratch

• DEFI fundraising and marketing with in the coinlaunchpad community

• Pre-Sale on Coinlaunchpad website with smart contracts by locking the liquidity pool

• Market and promote to coinlaunchpad members and give them the first opportunity for an early investment opportunity

• Help with launching the coin on decentralized exchange like pancakeswap or uniswap

• Coin listing on Coinmarketcap or coingeko

• Exchange listing like Binance, hotbit etc.

Why should you buy coinlaunchpad (CLPAD) tokens ?

Coinlaunchpad motive is to provide safe investment opportunities to investors which are not scams and rug pulls at the same time we would like to reward CLPAD holders by providing the early access to private and pre sales of the coins listed on the coinlaunchpad.

How it works ?

Coinlaunchpad is planning to rewards its holders based on the amount of the tokens it members hold 7-14 days before the pre-sale of the coins listed on coinlaunchpad. Below are the different plans and benifts

CLPAD Enterprise

All the CLPAD community members will be notified about the pre-sale and but no access to deal flow

CLPAD Discovery

• CLPAD Holders (worth of $100 to be defined)

• Access to deal flow

CLPAD Atlantis

- CLPAD Holders (worth of $500 to be defined)
- Priority Access to deal flow
- Reserve slot for allocation

CLPAD Endeavour

- CLPAD Holders (worth of $1000 to be defined)
- Priority Access to deal flow
- Reserve slot for allocation
- Signals & Trading tips
- Member cap 50 (To be defined)

CLPAD Endeavour

- Top 10 CLPAD Holders
- Voting rights for the future use Reserve funds minimum 6 out of 10 has to vote yes
- Member cap 10
- All the features and Elite club

Tokenomics

Token Name: CoinLaunchPad

Token Ticker: CLPAD

Decimals: 18

Total Supply: 1,000,000,000,000 (1 Trillion maximum supply and already minted)

Token Smart Contract Address:

0x37f835d6cfc0cd413d54d752d81860a62e05c8c2

Token Distribution:

Presale Tokens (Locked by DxSale team and added to Liquidity pool)
50%
Pancakeswap (Liquidity locked for six months)
**25%**
Dev Team (Locked and vested monthly)
18%
Marketing
7%

TOKENOMICS

- Dev, admin & Treasury Salaries — 18%
- Marketing — 7%
- Pancakeswap — 25%
- Presale — 50%

Legend: ☐ Dev, admin & Treasury Salaries ☐ Marketing ☐ Pancakeswap ☐ Presale

Token Presale

Presale is on DxSale and Liquidity will be locked and added to pancake swap by DxSale team. This is most trusted and safe process by investors

Hard Cap: **1500 BNB** Soft Cap : **500BNB**

Max per Wallet: **4BNB** Min per Wallet : **0.1 BNB**

Tax Model

Total Tax fee : 5%

Redistributed to CLPAD holders	1%
Burn (characteristic of a deflationary currency)	1%
Charity Wallet	1%
Liquidity Pool	1%
Marketing	1%

Wallet Address

Token Smart Contract Address	0x37f835d6cfc0cd413d54d752d81860a62e05c8c2
Marketing Wallet Address	0xE97D2eeEd673955dC715F867962aead9d5ba5Fbb
Charity Wallet Address	0x5B76939501e8D4f8473dB2b77B4ac112cEA0e04f

Audit Report

SUMMARY: Overall the code is well and performs well. There is no back door to steal funds.
